

The Woodland Heritage Initiative

This is to certify that

Hardwood & Joinery Softwoods

is a Member of Woodland Heritage

Woodland Heritage is a registered charity, established with the aim of significantly increasing the woodland area in the UK by funding tree planting projects and rescuing derelict woodlands, bringing them back into sustained management. Woodland Heritage will ensure that any gains in tree cover are maintained and consolidated by well-managed harvesting and restocking and will promote the development of uneven aged silvicultural systems.
